

Cromer Church - 2018 Action Plan

CROMERCHURCH
transforming lives with Jesus Christ

Mission <i>To have every disciple living mission, and the right opportunities for any individual to 'connect' with Jesus and His church.</i>	Discern and develop a clear process and parameters for reviewing Mission Partner links and do this in good time for January 2019. Continue to provide opportunities to 'Live Mission' through initiatives such as 40Acts. Communicate these opportunities clearly to help the church family understand what is being done and why, and how they can be involved.
Discipleship (including Prayer) <i>To have a clear disciple-making pathway, enabling everyone to grow.</i>	Finish devising and then deliver a course to help members of the church family discover their gifts and connect with appropriate opportunities for service and ministry. Build on the Welcome Meal to create a programme for newcomers (including connecting them to the gifting/serving course as well as appropriate discipleship opportunities) and run it from September 2018.
Families, Children and Youth <i>To have the best opportunities for Families, Children and Youth to find, and grow in, Jesus.</i>	Identify and implement immediate next steps to build a Youth Ministry team and progress our Youth Ministry.
Leadership <i>To have a leadership culture where we develop leaders of all ages, with everyone released for influence and some for specific responsibility.</i>	Plan and implement a series of 'Vision Forum' events. Create a diagram showing our current leadership structures and share it with the wider church. Develop another diagram with possible future structures, ensuring proper support and accountability for all staff and volunteers in leadership positions, and consider how to implement these new structures.
Structures <i>To have the most effective structures for growth in discipleship, numbers and service.</i>	Complete work on 'Everybody Welcome' and use the outcomes to plan and implement 'next step' changes to pastoral care arrangements, wherever this takes place. Complete the work of setting up the Communications Leadership Team and use this to make general improvements to communication, especially two-way communication between Staff Team/SLT/PCC and the wider church.
Facilities <i>To have facilities that serve our purpose, express our values and enable our vision. To make our current facilities work the best they can for short-term benefit.</i>	Review the purpose of Cornerstone and trial the location of an additional Cornerstone 'outlet' in the Parish Church building between May and October.
